## Crucial Evidence Of The Branch Of The Tree From Which Bahadur Sonkar's Body Was Hanged, Deliberately Destroyed.

New Delhi, 23rd July, 2009  
Dr. Udit Raj, National President, Indian Justice Party, said that he came to know that the branch of the Babool tree from which the body of the martyr Bahadur Sonkar was hanged on 13.4.2009, was deliberately removed with a view to destroy the crucial evidence in this case, in the afternoon of 22nd July, 2009. The common people of Jaunpur are surprised as to how this branch could fall suddenly especially when there was no rain or storm on that date. The fact is that the particular branch of the tree was pulled down with the help of a rope.

This is well known to every body that this year, there has been a drought like situation in Uttar Pradesh. It is also widely known that this matter is being investigated by the CBCID of Uttar Pradesh Police. Immediately after the murder of martyr Bahadur Sonkar, there was a round-the-clock police vigil with flood lights around this tree, so that this crucial evidence remains intact. The round-the-clock vigil of the Uttar Pradesh Police was very much in place and in their very presence, this crucial evidence has been removed. People in the surrounding areas are asking

as to why branches of the trees of the nearby areas have not got removed. A petition was filed in the Allahabad High Court on behalf of the relatives of Bahadur Sonkar and the Indian Justice Party praying the Court for a CBI enquiry into the matter. The High Court had given a ruling that the UP Government should hold a fair enquiry into the matter in one month's time. In doing so, the Court's intention was that if the fair enquiry is not completed in one month's time, then enquiry should be held by the CBI. Unfortunately, the Uttar Pradesh govt. backed out from holding a CBI enquiry.

Indian Justice Party highly condemns this attitude of the Uttar Pradesh Government. Thus, it once again establishes that this was clearly a murder and not a case of suicide Uttar Pradesh govt. knows that sooner or later when an impartial enquiry is held, the real culprits will be nabbed. The UP Government is trying its best not only to save the real culprits but is also doing its best to ensure that the CBCID and Uttar Pradesh Police officers who were directly or indirectly involved in the murder could also be given protection. Law and order position in Uttar Pradesh has

gone from bad to worse. Non-identification of the culprits of Bahadur Sonkar murder case is a glaring example of the poor law and order situation in the State. Dr. Udit Raj demanded that people who were responsible for removing this crucial evidence and the killers of Bahadur Sonkar should be booked immediately. He further said that if these demands are not met immediately, a strong movement will be started at the district level which may go up to State level.

## After the two-day Annual Convention of the Confederation, Dr. Udit Raj's book titled "Zaroorat Naye Andolan Ki" was launched by Shri Buta Singh

New Delhi, August, 09  
Two-day Convention of the All India Confederation of SC/ST Organizations was concluded today at Ambedkar

movement. The political scenario was quite gloomy as virtually all Dalit leaders who could raise their voice in Parliament had lost in the

country's financial resources are in the hands of a chosen few. It was resolved to hold a month-long dharna at Jantar Mantar, New Delhi

book "Zaroorat Hai Naye Andolan Ki" was launched by Shri Buta Singh, Chairman, National Commission for Scheduled Castes. While launching the book, he said that Dr. Udit Raj had selected important issues for his campaign which have been explained in his book, in detail. He extended his best wishes to Dr. Udit Raj and hoped that the book will be a source of inspiration to others. The maximum emphasis in Dr. Udit Raj's book is on collective leadership. In the past, the earlier Bahujan Movement became wayward and in the end, it became self-centred and money-minded. Now there is a need to start a new movement altogether which should provide leadership in every walk of life and should be a democratically-elected body.

criticizing the so-called upper caste people for their caste bias are now themselves indulging on the politics based on caste and sub caste. He said that these people are as much to blame for this attitude as the upper caste Manuvadis. In the book, Dr. Udit Raj has said in different contexts that originally the Bahujan Samaj Movement was shorn of opportunists but now it is full of opportunists. There is a special mention in the book that despite the fact that the Confederation had launched such a successful movement for reservation and social upliftment., the response from the society was not that good. In other words, history has not yet witnessed the full process of justice. It is also mentioned in the book that the Movement became weak not because of any role played by outsiders as has been done by narrow-minded and Casteist Dalit leaders. It is hoped that this book will be helpful in giving a new direction.

In the book "Zaroorat Hai Naye Andolan Ki", Dr. Udit Raj has made a frontal attack by severely criticizing the lack of moral values. He said that people who were earlier

\*\*\*

Dr. Udit Raj's book, 'Zarurat Nai Andolan ki' was launched by Shri Buta Singh

Bhawan, New Delhi, in which about 200 representatives from nineteen States participated. After intensive discussions and a brain storming session, it was concluded that there was an urgent need for a new

elections. The Reservation Bill which had been introduced in Parliament to be passed as Reservation Act is yet to be passed. The economic condition is still worse. Due to privatization and globalization, the

during the next session of Parliament for reservation in the private sector. It was also resolved to create a strong cadre of two hundred Trainers who would create awareness about our policies across the country. Dr. Udit Raj's

## INDIA'S POVERTY DUE TO THE LOOT BY THE RICHEST FEW

The two Ambani brothers can buy 100 percent of every company listed on the Karachi Stock Exchange (KSE) and would still be left with \$30 billion to spare. The four richest Indians can buy up all goods and services produced over a year by 169 million Pakistanis and still be left with \$60 billion to spare. The four richest Indians are now richer than the forty richest Chinese.

In November, Bombay

Stock Exchange's benchmark Sensex flirted with 20,000 points. As a consequence, Mukesh Ambani's Reliance Industries became a \$100 billion company (the entire KSE is capitalized at \$65 billion). Mukesh owns 48 percent of Reliance.

In November, comes Neeta's birthday. Neeta turned forty-four three weeks ago. Look what she got from her husband as her birthday present:

A sixty-million dollar jet with a custom fitted master bedroom, bathroom with mood lighting, a sky bar, entertainment cabins, satellite television, wireless communication and a separate cabin with game consoles. Neeta is Mukesh Ambani's wife, and Mukesh is not India's richest but the second richest.

Mukesh is now building his new home, Residence Antillia (after a mythical,

phantom island somewhere in the Atlantic Ocean). At a cost of \$1 billion this would be the most expensive home on the face of the planet. At 173 meters tall Mukesh's new family residence, for a family of six, will be the equivalent of a 60-storeyed building. The first six floors are reserved for parking. The seventh floor is for car servicing and maintenance. The eighth floor houses a mini-theatre. Then there's a health club, a gym

and a swimming pool. Two floors are reserved for Ambani family's guests. Four floors above the guest floors are family floors all with a superb view of the Arabian Sea. On top of everything are three helipads. A staff of 600 is expected to care for the family and their family home.
