Why Guru Ravidas was murdered ?

The truth about the murder of Guru Ravidas is gaining ground. The people who made business out of Guru Ravidas' charismatic character are opposing revelation of this heinous crime. They include equally Chamar and Brahman purohits. Such people have constructed gurudwaras and mandirs in the name of Guru Ravidas. They preach all sorts of nonsense, supernatural stories about him. They know if people start thinking of Guru Ravidas as a common man, their business will vanish. To get donations from lay-Dalits, they project him as Akalpurush who conquered all Brahmins. Some go even to the extent of calling him an avatar of Vishnu.

It is a historical fact that Guru Ravidas was an extraordinary man. He was truly a saint-soldier. I was often wondering: Guru Kabir who denounced Brahmins, their gods and their scriptures in the harshest terms, was never touched by the Brahmins. But what crime Guru Ravidas committed that his murder only could satiate their anger?

Here lies the truth (i) about the 'bravery' of the upper castes and (ii) murder of Saint-Soldier Ravidas. Guru Kabir, was a Muslim by birth. At that time India was ruled by Muslims. The Brahmins dared not touch him. On the other hand Guru Ravidas was born of poor, defenseless Buddhist parents. Hence he became a soft target. Nobody was behind his back to protect him. The reason for his murder was that he educated Dalits that they were the descendants of a great people but now reduced to slavery. He asked them to get rid of their ignorance and agitate to regain their lost regime. He organised all sects of Dalits to regain their lost prestige and, of course, their regime.

Babasaheb Ambedkar borrowed his Three Commandments: Educate, Agitate, Organise. from the Ravidas Bani. It is not a mere coincidence that both of them started their movement against Brahmanic oppression, making the 'right to worship' as their first step.

Both declared the Brahman Dharma and its scriptures as worthless, both of them claimed that Dalits are descendants of great kings and hence political power is must for their emancipation. In the later stages of their lives both embraced Budha Dhamma.

Guru Ravidas was brutally murdered and doubts have been raised from day one on the sudden death of Babasaheb.

What Guru Ravidas dared to do is startling :

1. After Budha, it was only Guru Ravidas who initiated people into his mission or Dhamma. Like his master, the Budha, whom he addressed as Niranjana in his Bani, he initiated women into his mission. Meera Bai and Queen Jhali are two such names. Guru Ravidas imparted education to women and that too Rajputs. It was a direct attack not only on their superiority but also roji roti of Brahmins.

Unlike Dalits, Brahmins know woman is the real head of the family for all social and religious matters. That is why they call only women to attend their kathas. When Guru Ravidas snatched their real 'customers' they got furious.

2. He openly denounced all Brahmanic scriptures including their Vedas, Purans, Smritis, Upanishads etc. He said: Charon ved kiye khandoti, Jan Ravidas kare dandoti (I Ravidas proclaim Vedas are worthless. His companion Guru Kabir did not hesitate to call Brahman purohits as wretched criminals of all four yugas. (Charon yug brahman khote). It was direct attack on the hegemony of Brahmins who did not allow even other upper caste Hindus to read their scriptures).

GURUMUKHI INVENTION

3. Like his Master, the Budha, Guru Ravidas discarded Sanskrit and its Devnagari script. He invented his own Gurumukhi script of 34 alphabets. He composed his Bani in this script. He said: Avidya ahit keen, taate vivek deep bhaya malin i.e. illiteracy and ignorance has done great harm to Dalits, it has caused opaqueness in their thinking. Just imagine, at a time when a Dalit stepping near a school attracted capital punishment, Guru Ravidas coined his own script to impart education to the Dalits. How could Brahmins tolerate it? The Brahmins knew awakened Dalits could never be kept slaves. So before Guru Ravidas could cause much harm to their agenda, they finished him.

BEGAMPURA

4. The ultimate cause for his murder was his exhortation to the Dalits for regaining their lost Achhoot raj. He composed a superb political thought in the shape of Begampura. It is the Constitution of Dalit Raj. Babasaheb incorporated all ideals of Begampura in the Preamble to the Constitution of India which is nothing but a replica of Begampura.

KULDIP KUMAR

But how sad that none of the thousands of our Dalit teachers ever thought over it. They simply repeat what Shuklas, Sharmas, Chaturvedis taught them about our Guru.

To me mere literacy is no education. It takes us nowhere.

I discussed this topic with many university professors including Dr. Ronki Ram, Head of the Dept. of Political Science, Panjab University, Chandigarh. They all fully agreed with me that Begampura has nothing to do with religion and that it is a pure political theory.

RAVIDAS AS POLITICAL PHILOSOPHER

I requested them that they should ask their universities that Guru Ravidas be taught as a political thinker and his Begampura be included in the textbooks of political science but till date all our Dalit professors are silent.

If high court and Supreme Court judges can quote from the Gita in their judgments, why not from the Begampura which is the basis

of our Constitution? This is because the Dalit leaders have buried their 'Soldier' Ravidas deep under his sainthood.

Why? Because 'Soldier' always asks for sacrifices but a Hinduised saint is a source of income.

What is Guru Ravidas' viewpoint on Dalit Raj?

(1) That the Indus Valley Kingdom has been our Watan. He writes ab mohe khoob watan gah payi i.e. I have fully known my native land. He writes in his Bani that when he preached this message among millions of his brethren, they lamented that so far nobody had told them of this truth.

(2) That our forefathers have been great kings, poets, soldiers, donors and scientists. Our forefathers never used their budhi (knowledge) for destructive purposes. We the Dalits are descendants of such great people that we can be surely proud of them.

(3) That Dalits who were rulers of this land, have been dethroned and made slaves. And know it: everybody hates a slave. Even slaves do not have the right to profess their own

Dhamma.

(4) That our condition is like that of a king who had a nap while sitting in his throne and during his slumber he saw himself as beggar. The moment, we come out of that slumber i.e. ignorance, we shall again be rulers of our native land.

(5) That for regaining our lost regime, the first step is Educate yourself i.e. know your history and shape your future. Then break the barriers of Casteism and struggle against the oppressors. Educate, Agitate and Organise is a continuous circle.

We the "educated Dalits" must resolve to educate our masses about our true history for which Guru Ravidas sacrificed his life.

For detailed study, please read my book in Hindi Aisa Chahun Raj Mein.... Sant Sipahi Ravidas. Published by Samyak Parkashan 32/3 Club Road, Pashchim Puri, New Delhi-110 063.

Dr. Udit Raj writes letter to PM & HRD Minister to rectify the Reservation Bill

New Delhi, February 8.

Dr. Udit Raj, the National Chairman of All India Confederation of SC/ST Organisations, wrote letters to Prime Minister - Shri Manmohan Singh, UPA Chairperson - Smt. Sonia Gandhi, HRD Minister - Shri Arjun Singh, Social Justice & Empowerment Minister - Smt. Mira Kumar and Minister for Chemicals, Fertilizers and Steel - Shri Ram Vilas Paswan to remove the deficiencies in the Reservation Bill.

The Scheduled Castes and Scheduled Tribes (Reservation in Posts and Services) Bill 2008 was passed on 23rd December, 2008. He said, this could have been passed much before as it was introduced in December, 2004. However, section-4(1)(iv) defeats the purpose when it says that the posts higher than the lowest grade of Group 'A' posts can not be reserved in institutions of national importance and Indian Institutes of Management specified in the schedule. There are 47 institutions of such national importance where reservation will be restricted to the lowest rung of Class-I. The bill is silent about reservation in promotion in senior scale of Group-A. So far, reservation has

been restricted to the lowest rung of Class-I in all services and after the making of Reservation Act also, position remains the same. The All India Confederation of SC/ST Organisations has been fighting for reservation in promotion in all grades in all services, including highest echelons.

Section 13 of the Bill provides for a liaison officer who will be the watchdog at the level of implementation but about his independence, no cover has been provided. He should be either of the rank of DPC members or senior to them and

to secure his independence, it will be appropriate that he is appointed from other departments. Time has gone when adequate SC/ST candidates were not available but now situation has changed. Dr. Udit Raj demanded that necessary amendments be made in the bill when it is tabled in Lok Sabha so that the representation of these weaker people are reflected at higher echelon also in all services including the 47 institutions mentioned in section-4(1)(iv).

Change of Address

Friends,

Address of IJP, Confederation at B-113, Sarvodaya Enclave, New Delhi-110017 has now been changed to T-22, Atul Grover Road, Connaught Place, New Delhi. Now onwards, the correspondence should be made at new address.

-Dr. Udit Raj, National President

VOICE OF BUDDHA

Publisher: Dr. UDIT RAJ (RAM RAJ), Chairman - Justice Publications, B-113, Sarvodaya Enclave, New Delhi-110017, Tel: 26960022, Telefax: 26534559

UK, US judges declare assets, Indian judges don't want to

New Delhi, Jan. 30, 09

On January 21, his first day in office, the President of the United States, Barack Obama, signed his first official document. It read: "Starting today every agency and department should know that this administration stands on the side not of those who seek to withhold information, but those who seek to make it known."

That reversed a post-9/11 Bush administration policy making it easier for government agencies to deny requests for records under the Freedom of Information Act. Why can't judges?

A day after Obama lifted the curtain of secrecy, an Indian government advertisement released to newspapers read: "Promise fulfilled. Citizens get the Right to Information. Government accountability ensured. Transparency in administration ensured."

That's an election promise that the Congress-led UPA government did fulfill, making the right to information

a law in 2005. The problem is it hasn't gone far enough, with every branch of the bureaucracy less than keen to part with information, even about themselves and their working. In a three-part series, the Hindustan Times will explore how and why the enforcers of a law that could truly make India's governments more responsive and efficient are themselves resisting scrutiny.

Start with the Department of Personnel and Training, the agency responsible for ensuring your right to information. Its website says: "Information means any material in any form including records, documents, memos, e-mails, which can be accessed by a public authority under the law but does not include file notings."

If you liken files with information to your home's water tank, file notings are like pipes directing water. It isn't enough to peer into the water tank: You need to know where and how the water is flowing. It's a critical distinction that

Nagendar Sharma

allows government servants to resist every attempt at transparency.

It's no surprise then that the Supreme Court is presently embroiled in a tussle with the Central Information Commission (CIC) about making the finances of judges open to the public. For good measure, the commissioners are themselves divided over allowing public scrutiny of their own finances.

"Those sitting in high offices in any institution want to be treated as holy cows and that is the biggest stumbling block in the way of a transparent regime," said Magsaysay award winner and information activist Arvind Kejriwal.

A textile trader leads the charge

As always, it is citizens who are driving change.

The revelation that Supreme Court judges are not keen to declare their assets emerged when a 60-year-old Delhi textile businessman, Subhash Chandra Aggarwal, filed a right-to-information

application back in 2005.

Harassed by a judge, who was interfering in his case in Delhi High Court in return for "favours offered" by Aggarwal's opponents, he filed a complaint against him with the Chief Justice of India.

"When I got no reply for months, the RTI Act came as a boon for me, and I filed an application wanting to know the status of my complaint," said the Chandni Chowk resident, who has filed more than 1,000 right-to-information applications on various issues over three years.

Aggarwal then read in the Hindustan Times on November 8, 2007, that judges did not want to reveal their assets. Quoting the Right to Information Act (RTI), he wrote to the Delhi High Court.

"As usual I got no reply from the high court and Supreme Court, so I went into appeal in the CIC," said Aggarwal. "The matter continued for months, and then finally I got an order on January 6 this year. I never expected it to become such a huge issue."

Once the order became

public, the judiciary appeared defensive. Chief Justice of India K. G. Balakrishnan said: "We do not agree with the CIC order and would challenge it."

Instead of using the opportunity to make its internal affairs transparent — as is done in the U.S. or the U.K. — the Supreme Court tried to stonewall any attempts to subject judges to public scrutiny.

In the U.S. judges declare their assets and the gifts they receive regularly in newspapers, while all financial details about U.K. judges are posted on the website.

In an unprecedented move, the Supreme Court challenged the CIC order in the Delhi High Court, which has stayed the commission order. The case will now be heard on February 12.

Watch this space.

Two days' brain storming and leadership building programme on 7th and 8th March

After our rally of 2008, a good impact was made and as a result, the government had to pass Reservation Bill in the Rajya Sabha. However, there are certain deficiencies in the Bill and we are fighting for their removal. At the moment, we are facing serious crisis on social-cultural front. It is never late to check declining social-cultural movement. Not only this but also we have to give momentum so that our society is not only empowered politically but economically and socially also. Correct thoughts and ideas will make us leaders in politics, industries, market, education and in other important areas. Our struggle for reservation in private sector is to continue and we have to make it more effective. Discussion and meditation in the session will be to understand the mission in correct perspective. Please come with preparation so that your input can help us in arriving at some conclusion as to how to create alternative social-cultural movement.

We are holding two days' brain storming and leadership building programme on 7th and 8th March, 2009 (Saturday & Sunday), at 10 AM. sharp at Ambedkar Bhavan, Rani Jhansi Road, New Delhi. This is going to be very beneficial to all of us. Therefore, attend it with other committed and spirited leaders.

- Dr. Udit Raj, National

APPEAL TO THE READERS

It is good news for you that the Voice of Buddha will now be published both in Hindi and English so that brothers and sisters who cannot read Hindi find no problem in reading our message. I appeal to the readers to send the subscription amount either through draft or money order in favour of 'Justice Publications' at B-113, Sarvodaya Enclave, Opp. IIT Gate, Aurobindo Marg, New Delhi-110017.
